

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

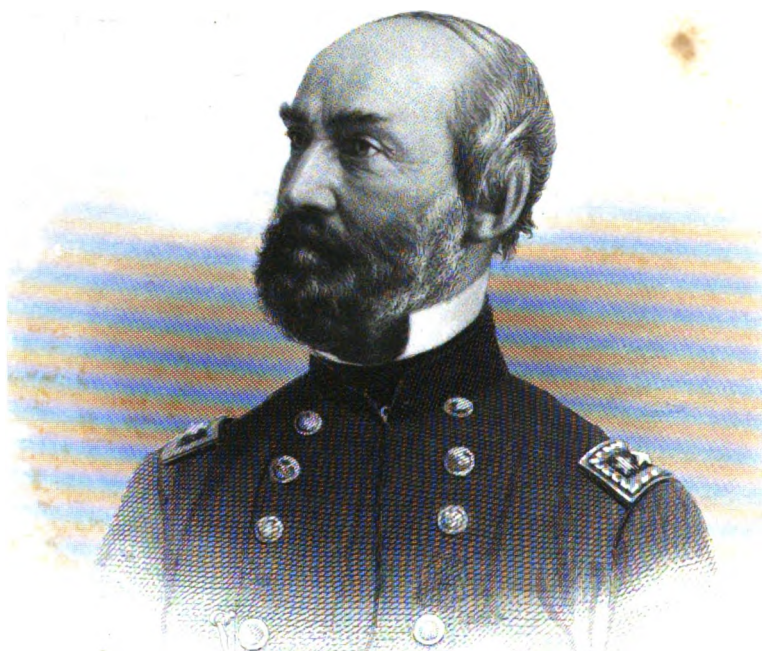

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

PREFACE.

In June, 1907, the undersigned was invited by the Trustees of the will of General Cullum to edit a supplement to the Register of Graduates which should cover the years 1900-1910. In February, 1908, circulars authorized by the Trustees were prepared and a copy was sent to every graduate of the U. S. Military Academy whose address was known. These circulars are reprinted here, as a matter of record.

CIRCULAR.

WEST POINT., N. Y., January 1st, 1908.

DEAR SIR:

It is possibly known to you that General George W. Cullum provided in his will for the publication "in the year 1900 and decennially thereafter" of continuations of "General Cullum's Biographical Register of the Officers and Graduates of the United States Military Academy at West Point, N. Y." The duty of preparing such continuations is confided to five Trustees, viz.: The Superintendent of the U. S. Military Academy and the Professors of Natural and Experimental Philosophy; of Engineering; of Mathematics; of Chemistry, Mineralogy and Geology.

The Trustees in fulfillment of this duty have decided to print in the year 1910 a supplemental volume, similar to that prepared and edited by Dr. Holden and published in 1901. This supplement will contain the records in full of all graduates since June, 1900, and will continue the records of all other graduates up to January 1st, 1910, if living, otherwise to date of death.

In order to make the proposed volume a fitting companion of its predecessors and that it may appear at the desired time, it is essential that every graduate who receives this circular shall return it promptly, filled out with brief and accurate data in the form adopted in Cullum's Register. *You are Therefore Earnestly Requested to Return this Circular at the Earliest Practicable Moment*, in order that the work of compiling the records of ten years may *begin* at once; compliance with this request will enable the work to *begin*, but it can only be *completed* by additional data from each graduate at a later date, and it would greatly facilitate the progress of the work if every officer would, without further notice, on January 1st, 1909,

and 1910, send in additional records for the preceding year. The records should be very carefully prepared in accordance with the model provided, as it will not be practicable to send proof sheets for the personal revision of graduates.

The Trustees will use all reasonable diligence to make the records of officers complete, but the Biographical Register cannot be what it should be unless *every* graduate returns a full record of his own service, both military and civil.

The Trustees have confided the preparation and editing of the new volume to Lieut. Charles Braden, who was Secretary of the Association of Graduates from 1880 to 1900, and who, in addition, rendered very material assistance in the preparation of the supplemental volumes of these dates. He is, therefore, familiar with the work to be done and has a fuller knowledge of the records of the Association than any other graduate.

It is requested that answers to this circular be sent directly to him at Highland Falls, N. Y. The blank to be filled out and the model to be followed, accompany the circular. There is also provided a space for the insertion of the addresses of any graduate in civil life which may be known to you; many such addresses are unknown to the Trustees, and your assistance in discovering them is asked.

The requests of this circular are concerned with the common interests of all graduates, and the Trustees reiterate their plea for the small assistance asked of each in filling out and returning the blanks.

HUGH L. SCOTT,

S. E. TILLMAN,

Superintendent. Professor of Chemistry, Mineralogy, and Geology.

GUSTAV J. FIEBEGGER,

WILLIAM B. GORDON,

Prof. of Engineering. Prof. of Natural and Experimental Philosophy.

CHARLES P. ECHOLS,

Professor of Mathematics.

*Son of John M. G. Parker, 1st Lieutenant and Quartermaster, 30th Massachusetts, in the Civil War.

ADDITIONAL SUGGESTIONS AS TO CIVIL HISTORY.—Give the business or profession you have been engaged in and the principal position you have held, with dates; the names of books, etc., written by you; a list of the learned societies of which you are a member; a list of your college degrees, etc.; postoffice address. If record was not full in last volume, give complete record since 1890, or since resignation.

ADDITIONAL SUGGESTIONS AS TO GENERAL RECORD.—Give full name, Volunteer and National Guard service, service medals, brevets, names of ancestors who were officers of Army, complete date of birth.

[N. B.—Please look over this blank with care before beginning to fill it out. In filling it out, please adhere to the form prescribed by General Cullum, a specimen of which is given above, writing legibly in ink; when practicable use a typewriter. Please make every entry as brief as possible consistent with clearness, presenting only the essential facts. It is necessary to print each officer's record in a very condensed form, and it is far better that the condensation should be made by yourself than by any other person. Will you therefore be as brief and exact as possible? Return this blank, prepaid with letter postage, to Lieutenant Charles Braden, U. S. A., Highland Falls, N. Y., at your earliest convenience.]

Responses commenced at once and by January 1, 1909, about 80 per cent. of the graduates had sent their records up to that time. Not more than 5 per cent. sent supplementary records as requested in Circular I.

The following additional circular was sent to delinquents:

WEST POINT, N. Y., JANUARY 20, 1910.

DEAR SIR:

No replies have been received from you to the circulars sent out asking graduates to send their records. Unless you furnish the information desired, you will be reported as "unknown," for the War Department has refused to aid us in any way in obtaining the records of living graduates.

Kindly send at your earliest convenience, your record to date.

We have it to.....

CHARLES BRADEN,

Compiler of the 1910 Edition of Cullum's Register of Graduates.

Notices were also inserted in the two Army papers and in the circulars sent to graduates about the annual meetings of the Association in 1909 and 1910.

The general plan of the present supplement, as approved by the Trustees of the will of General Cullum, contemplates:—

1st. That the name of every graduate of the Academy shall appear in its proper order in the body of the book, and in the Index. In the book the names of graduates are arranged by classes and by class rank; in the Index they are arranged alphabetically.

2d. That if the graduate is living at the date of publication, the form of entry in this supplement is to be that adopted by General Cullum in his *Register*, 3d edition. If the graduate died before 1909, the entry is to be in the following form:—

NUMBER.	CLASS RANK.
1....(Born Mas.).....	JOSEPH G. SWIFT†....(Ap'd Mas.)....

The † signifies that the graduate is deceased. The full records of graduates who died before 1900 will (generally) be found in the third and fourth editions of the *Register*. Whenever any new facts with regard to the place or date of death of such graduates have been discovered they are given in this supplement.

The names of graduates who have died since 1900 are given in the same form as, for example,

NUMBER.	CLASS RANK.
1634..(Born Me.)...	OLIVER OTIS HOWARD†..(Ap'd Me.)...4

To such entries the Military or Civil History of the graduate (1900-1910) is added, with the date and place of his death, and with a reference to such obituaries as have been published in the successive *Annals* of the Association of Graduates of the U. S. Military Academy. If a portrait is there given, the fact is noted.

3d. That the present supplement should only give information *additional* to that contained in the 4th edition of the *Register* and hence no entries referring to dates before 1900 are inserted except to make records continuous.

4th. That the records of all officers graduated since June 13, 1900 (after No. 3993), are to be given in this supplement in the complete form prescribed by General Cullum.

The Editor called on the Adjutant-General of the Army in May, 1908, and asked permission for a clerk to copy records of *deceased* graduates and of those who failed to reply to the requests for information.

The work by the clerk was to be done after hours and he was to be paid for his services.

The Adjutant-General refused to give the necessary permission, but finally allowed the records of *deceased* graduates to be copied.

The Editor is under many obligations to the Chief of Engineers, Chief of Ordnance, Commissary General and Quartermaster General for valuable assistance in furnishing records of officers of their respective departments.

Nearly two hundred graduates failed to make any response to the circulars. Their histories are accordingly given as "Unknown—No information having been received." Their promotions, taken from the 1910 *Army Register*, have been inserted.

Some of the reports were written in such a careless manner as to be illegible in part; often without punctuation; proper names were, in many instances, abbreviated and the abbreviations were commenced with small letters instead of with capitals. Much guessing had to be done by the proof-reader and many errors will undoubtedly be found.

There were a number of instances where class rank, date of graduation, and date of promotions were incorrectly given.

The Editor of Vol. IV. said:

"Experience in the preparation of the present volume has proved to the Editor that the only way in which the Biographical Register of Graduates can be made entirely complete and satisfactory is, *first*, to obtain from the files of the War Department a record of the service of every graduate; *second*, to obtain from each graduate a statement of his own services, in which emphasis will naturally be laid on the more important incidents of his career; and *third*, to obtain, by subsequent correspondence, all details necessary to make up a full and complete history. It is very desirable that, in the future, graduates shall be requested to give their records every year, or every two years; at any rate at short intervals."

This is an admirable suggestion, but from what has already been stated it could not be carried out under the present ruling of the Adjutant-General of the Army.

One graduate sent annually, his record of service from 1900 to 1908 to the Adjutant of the Military Academy, but, no one being charged with the care of such data, they were lost, or rather could not be found by the Editor of this volume.

It will be noticed that different words are sometimes here employed to record like facts. The reason is that many of the officers did not follow the models sent and their records are made up from their own returns and given in their own words.

The history of a retired officer is called Military History unless he is known to have held civil offices or to have engaged in civil pursuits after retirement. In such a case it is recorded as his Civil History. In the records of Civil History every reply received is here printed. Every opportunity has been given to graduates in civil life to place their records in this volume.

A number of officers sent their entire Military Histories from date of graduation (one, some of his Cadet history), with requests that they be published because there were errors and omissions in their records published in Volumes 3 and 4. Others requested that they be furnished proof-sheets for revision. The Trustees decided that, however desirable it might be to comply with these requests, it was, under the circumstances, impracticable.

It is recommended that in 1915 the records of all living graduates be asked for to that date. This will give ample time to collect data from every available source. Then in 1919 another request should be made for all records to January 1, 1920. Some one at West Point should be steadily employed to collate what is sent.

The records of *deceased* graduates should be kept written up to date of death. This will be of much assistance to the Editor of the 1920 edition, as it will give him more time for the work of compiling the records of living graduates.

In June, 1910, the number of living graduates was about 2,600. The number in civil life about 300. The total number (including foreigners) 4,934. One addition was made to this number August 31, 1910.

The Editors of the previous editions were able to secure from the files of the War Department records not otherwise obtainable. The Editor of this edition was denied this privilege and is greatly disappointed with the result of his labors.

A number of graduates in civil life—whose histories were heretofore unknown—have been traced, but the fact that the records of nearly 200 officers now in the service are missing, detracts from the value of the book.

In previous volumes the index has given the Cullum number only. In this volume the class has also been given. This plan adds greatly to the value of the index, as it is a check on errors. It is not probable that both Cullum number and class will be wrong, whereas, if only one is stated and that happens to be incorrect, it would be difficult to locate the graduate.

This idea is taken from the index compiled by Mr. Ostrander, Assistant Librarian, in 1902, for the Centennial of the Military Academy.

NOTE.

In the following pages a † after the name of a graduate signifies that the graduate is dead. If the death occurred before 1890, it is recorded in the third edition of the *Register* (1891); if between 1890 and 1900 in the fourth edition of the *Register* (1900.) If the death occurred before 1900, but was not known till after this date, it is noted in this volume.

A * after the name of a graduate usually refers to a foot-note giving the name of the graduate's father. The names are printed in the text in the order of graduation and class rank. In the Index the names are arranged alphabetically.

It is requested that graduates who consult this volume will communicate to the Secretary of the Association of Graduates, at West Point, any additions or corrections which ought to be made in a subsequent edition; and, also, that they will note (in a separate memorandum) any desired additions or corrections to the fourth edition of the *Register*, Volumes I, II, III, IV.

This is the Supplement, Volume V, 1900-1910, to the Biographical Register of the Officers and Graduates of the U. S. Military Academy at West Point, N. Y., since its establishment in 1802, by Brevet-Major-General George W. Cullum, Colonel of Engineers, U. S. Army, retired. Edited by Lieut. Charles Braden, U. S. A. Retired. Printed by Seemann & Peters, Saginaw, Michigan, 1910. 8vo.

Military History.—On sick leave, Sept. 6 to Dec. 31, 1898; returned to duty January 1, 1899, and rejoined battery at Ponce, Porto Rico, where it remained as part of the garrison of the island, until June 22, when it returned to the United States, arriving in New York June 27; in garrison, Washington Barracks, D. C., June 30, 1899, to August 17, 1900; served upon a number of boards appointed by the War Department, the most important being one convened at Fort Leavenworth, Kan., March 6, 1900, to prepare plans for the location of certain buildings and the extension of the post, to provide accommodations for the enlargement and development of the Infantry and Cavalry School there. On August 1, his battery was designated for duty in China, and on Aug. 17, he proceeded by rail with it to San Francisco, Cal. Here orders were received directing it to proceed to the Philippine Islands for station, there being no longer need for additional troops in China; sailed for Manila, Sept. 3, proceeding via the northern route and the Inland Sea of Japan, touching at Kobe and Nagasaki; landed at Manila, Oct. 9, 1900, and served as part of the garrison of that city.

(MAJOR IN THE ARTILLERY CORPS, NOV. 4, 1901)

—As field officer during the winter of 1901-1902, supervised the equipping of the new mountain batteries organized under the law of Feb. 2, 1901, one of which (McNair's) was equipped in time to render signal service in the first expeditions against the Moros in the Lake Lanao District, Mindanao, in the spring of 1902. In addition to duty with troops, was a member of a number of boards, the most important being one appointed by the War Department to consider and report upon the subject of the defense of the principal harbors of

the Philippine Islands. On the completion of this duty, left Manila July 14, 1902, landing in San Francisco, Cal., August 14; was detailed as a member of the Ordnance Board, under the orders of the Chief of Ordnance, with station in New York City; was directed by orders from the War Department to delay at Fort Riley, Kan., *en route* to his station, long enough to act as umpire with the maneuver division under General Bates, during Sept., and later, in conjunction with the post engineer officer to formulate a scheme for completing the survey and map of the Fort Riley Military Reservation, work upon which was begun in 1897, and interrupted by the outbreak of the war with Spain. Oct. 18, 1902, was detailed as a member of the Board of Ordnance and Fortification; April 17, 1903, was detailed as a member of the General Staff, constituted under the Act approved Feb. 14, 1903, to date from August 15; was later assigned to duty with the War Department General Staff, with station at Washington, D. C.; was relieved as member of the Ordnance Board, Dec. 3, 1903; was selected as one of the military attaches to accompany the Russian Armies in Manchuria, as observer during the campaign against the Japanese; reported to our Ambassador at St. Petersburg, May 9, 1904, and reached the front via the Trans-Siberian route, in June; was present at various preliminary operations and observed the great battle of Liaoyang, Sha River and Mukden, remaining on duty with the Russian Army until recalled in Oct., 1905, after the conclusion of peace; reached the United States in Dec. and resumed duty with the War Department General Staff.

(LIEUT-COLONEL IN THE ARTILLERY CORPS, MARCH 26, 1906)

—Was relieved as member of the General Staff Corps by reason of this promotion. On April 21, was assigned to the Field Artillery and directed to continue work upon report as military observer during the Russo-Japanese War; under the same order, proceeded to Fort Riley, Kan., and assumed command of the Artillery Sub-Post, Oct. 1, 1906, continuing on that duty until June 15, 1908.

(COLONEL IN THE ARTILLERY CORPS, APRIL 5, 1908)

—During this period was president of the Field Artillery Examining Board; also of the board to prepare a program for the attack and defense of the infantry redoubt at Fort Riley, and superintend the execution thereof, one object of the experiments being to ascertain the best types of guns and projectiles for heavy field artillery, and the type of field work best calculated to resist them; during the school year of 1906-1907, delivered a course of lectures before the student officers of the Service Schools at Forts Riley and Leavenworth on his experience as military observer in the Russo-Japanese War; on June 6, 1907, was assigned to command the 6th Regiment of Field Artillery (Horse,) with headquarters at Fort Riley, Kan., and at once took up its organization; in March, 1908, delivered lectures before officers of the Service Schools and Staff College at Fort Leavenworth, and of the Army War College at Washington, D. C., on the *Functions and Operations of Field Artillery in Campaign, as Developed in Recent Years*; detailed as a member of the General Staff Corps, May 23, 1908; reported for duty, July, 9, 1908, and was assigned to the War Department General Staff as Chief of the First Section and in special charge of matters relating to Field Artillery; was detailed as a member of the Board of Ordnance and Fortification and of the General Staff Committee on Army Reorganization; December 4, 1908, was directed to deliver a lecture at the annual convention of the National Guard Association of Pennsylvania, on the *Mutual Relations of the Infantry and Field Artillery in Campaign, as exemplified in the Russo-Japanese War*; in Oct., 1909, represented

the General Staff as observer of the artillery firing at Fort Riley, Kan., to test the efficiency of modern field works when attacked by the latest types of field cannon, designed for the United States Field Artillery. Those experiments were to supplement those undertaken in 1907, and were intended to supply the War Department with definite data upon which to frame a policy for the completion of the armament of the field artillery with suitable heavy guns and howitzers; was selected by the President for promotion to Brigadier-General to fill the vacancy occurring Nov. 14, 1910.

See report of War Department, 1901, Volume 1, page 41, special mention by General Bell, commanding District: "In this connection Lieutenant Johnston has done remarkable service and is deserving of much credit." Joined Troop G, 15th Cavalry, in June, 1901, at Zamboanga, Mindanao; at Zamboanga and Devao, Mindanao, to Dec. 1, 1901; on the request of General Bell, was ordered by the Division Commander to report to him at the commencement of the Concentration Campaign in Southern Luzon; reported Jan., 1902; Brigade Provost Judge and special work breaking up insurgent organization in the field throughout the Provinces of Batangas and Tayabas until the close of the campaign, about June, 1902; received the surrender of the insurgent columns of Santo Tomas and also that of Tanaun Batangas, about 150 guns in each command, with officers and enlisted men during this campaign; likewise received the surrender of numerous insurgent forces at Lipa, Batangas and Tiaong, Tayabas. This work is mentioned in report of the War Department, 1902, volume 9, page 275. "Though all these staff officers performed their respective duties in an able manner entirely satisfactory to me, their opportunities varied, and I deem it no invidious distinction to state my conviction that without the exceptionally valuable assistance of Captains Boughton, Davis and Johnston, I could not possibly have accomplished the pacification of this brigade in so short a space of time. These three officers have had ample experience and were masters of their special lines of work. They labored (as did others) night and day, and their zeal, industry, energy, sound judgment, ability and initiative could not have been surpassed. It is with a feeling of profound satisfaction and appreciation that I hereby acknowledge my obligations to them and to my other staff officers." Arrived at New York, *via* Suez, Dec., 1902; on leave Dec. 1, 1902 to March 15, 1903; Acting Department Inspector and Assistant to the Inspector-General, Department of California, from March, 1903, until the middle of Feb., 1904, at which date joined Troop G, 15th Cavalry, Fort Myer, Va.; at Fort Myer, to Dec. 1, 1904; at Fort Ethan Allen, Vt., from Dec. 1, 1904 to the middle of July, 1905, during which time commanded troop and garrison duty, in the middle of July, 1905 to March 6, 1906; at Headquarters, Department of the East at Governor's Island, New York, as Assistant to the Adjutant-General and Inspector of Small Arms Practice, and in charge of Department Athletics, etc., from March 6, 1906 to March 1, 1909; Aide-de-camp to Major-General F.
